Care and kindness

I RECENTLY was admitted to our beautiful local Mona Vale Hospital and I am lost for words when it comes to sufficient accolades due to all the staff from emergency to the ward and then discharge.

I was treated with such care, proficiency and kindness.

Thank you seems inadequate, but I want to thank the staff who looked after me, day and night, with such attention that I felt like I was the only patient in the three-bed ward.

I don't remember the individual names of the nurses, but Jenny, the NUM will know who they are.

Thanks so much to you all on level two.

Well done and best wishes as you move on to the new hospital. They will be blessed to have you on board.

Marilyn Love, Mona Vale
